STAR WEBBING INDONESIA
GROUP

PT Star Webbing Indonesia Group

Company Profile

Sewing thread, fabric and zippers for production.

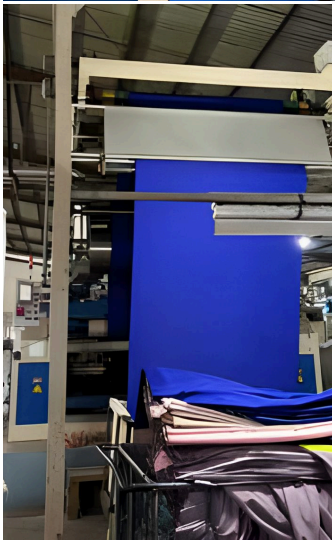

PT Star Webbing Indonesia Group

Your Satisfaction Is Our Responsibility for Better.

PT Star Webbing Indonesia Group works with manufacturers as a B2B textile product producer and supplier, through manufacturing and OEM partners where applicable. The portfolio is organized around application fit, practical material selection, sampling, customization and production support.

Vision

To become the main leader of textile companies in Indonesia in providing uniforms and fashion through sustainable business development.

Mission

To create innovative and quality products while maintaining competitive prices.

Providing the best service to meet customer satisfaction.

Always improving resources on an ongoing basis.

Fostering relationships with all employees, customers and communities to achieve mutual prosperity.

Motto

Your Satisfaction Is Our Responsibility for Better

Track record

Always improving how we produce.

Our facility in Indonesia handles dyeing and finishing in-house, with quality controls along the process.

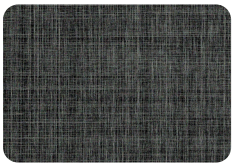

Dyeing and finishing	Fabric dyeing and finishing are done at our facility, with quality checks along the process.
Tensile testing	Production is load-tested so its strength fits how it will be used.

Sewing Thread

Star Spun · Star Nylon

Fabric

Uniform · Apparel · Fire retardant · Waterproof · Anti-cut · Camouflage · Technical

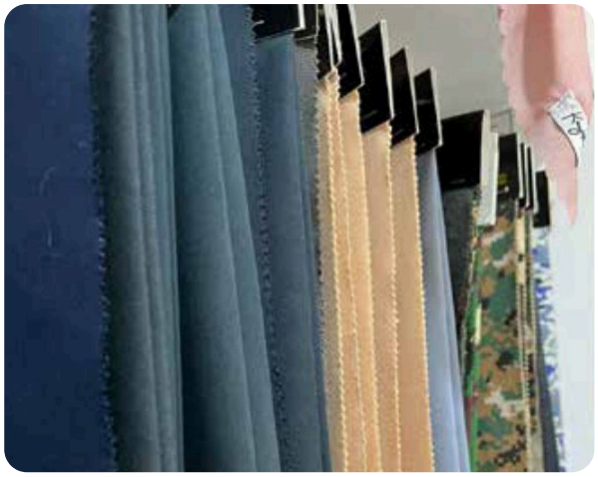

Zipper

Coil · Molded plastic · Metal · Invisible · Waterproof · Custom

Fabric

Fabric for Uniforms, Apparel and Industry

From TR and polyester for uniforms to functional fabrics for professional use.

Uniform fabrics	A wide range of TR and polyester fabrics designed especially for the uniform sector.
Apparel fabrics	Polyester, TR, viscose, linen and numerous other blends.
Functional fabrics	Anti-bacterial, anti-static, fire retardant, water resistant and other fabrics for industrial or professional settings.

Toyobo

100% polyester, available as Toyobo Fodu and Toyobo Royal Mix.

Oxford

A basket weave with a slight luster, popular for casual to formal shirts.

Fabric types

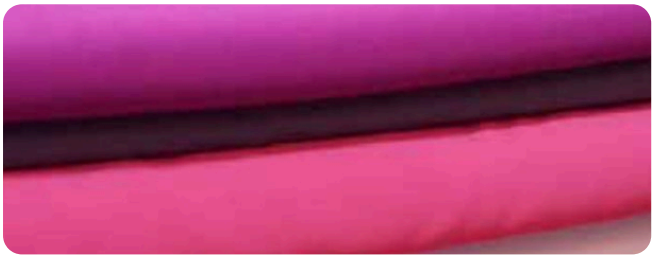

Baby Doll

A soft, flowing chiffon derivative that resists wrinkles, widely used in Muslim fashion.

Wollycrepe

A comfortable cotton and polyester blend that absorbs sweat and resists wrinkles.

Wooly Peach

Thin and light but not see-through, with vivid print colors and a cool feel.

Shakila

A cotton and silk blend that absorbs sweat quickly, suited to everyday clothing.

Voal

A hijab fabric that is comfortable to wear and tends not to wrinkle easily.

Polyester

A durable synthetic fiber. In blends, it adds strength to other fabrics.

FR Fabric

Fire retardant fabric designed to reduce fire hazard in specific uses.

Chiffon

A light plain weave with a slight shine, from natural or synthetic fibers.

Fabric types

Crêpe

A distinctive crinkled surface, for dresses, suits, blouses and home decor.

Damask

A reversible jacquard fabric, with the pattern woven into the cloth.

Georgette

A light, matte crêpe, often found with colorful floral prints.

Lace

A delicate open-weave fabric used to embellish clothing and home decor.

Muslin

A light, loosely woven cotton, often used to test garment patterns.

Organza

A light, sheer plain weave, popular for wedding gowns and evening wear.

Satin

A soft, lustrous surface on one side, with a beautiful drape.

Silk

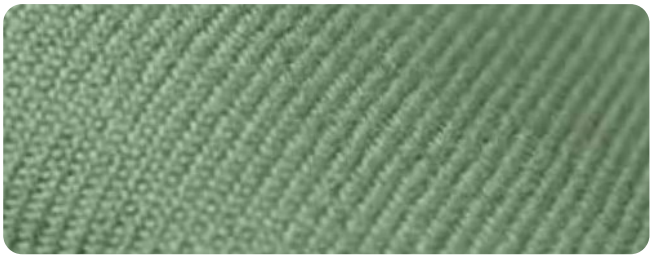

A strong, soft and shiny natural fiber, for formal wear and accessories.

Fabric types

Toile

A single-color pattern on a light ground, for clothing, upholstery and curtains.

Twill

A thick, durable diagonal weave, used for denim and chinos.

Velvet

A dense, soft and shiny pile, for evening wear and upholstery.

Viscose

A semi-synthetic fiber from wood pulp with a silk-like feel, for blouses and dresses.

Sewing Thread

Stitches Built to Last

Star Spun	Spun polyester sewing thread for general garment and textile production.
Star Nylon	Nylon sewing thread for demanding uses: footwear, bags, leather goods and upholstery.

Zipper

Zippers Designed Around Your Product

Coil Zipper	Flexible, for garments, bags, backpacks, luggage and pouches.
Molded Plastic Zipper	For jackets, outerwear, bags, sportswear and outdoor products.
Metal Zipper	For denim, jackets, bags, leather goods and fashion accessories.
Invisible Zipper	For dresses, skirts and formal wear that need a clean seam.
Waterproof Zipper	For outdoor bags, outerwear, tents and technical products.
Custom Zipper	Pullers with your brand's logo, shape and colors.

Who uses our products

Our fabrics have been used by Rabbani, Elzatta, Elzaura, Al Luthfi and Kalibre, along with school uniform projects and many more.

Our products have also been used by TNI, POLRI, Eiger Bags, Visval Bags, Tupperware, Kreatur Performa Sinergy and Inti Teknik Proteksindo, and many more.

How we work with you

Samples	Evaluate material options before you commit to production.
Dye-to-match samples	Color matched to your sample.
Bulk production	Production for your manufacturing requirements.
Minimum order	Minimum quantities depend on the product and size.
